

36-inch Wide 4- Door Refrigerator with More Flexible Storage¹ - 26 cu. ft.

4.5 (2003) [Write a review](#)

Model #: WRX988SIBM

MSRP

\$3,099.00

-Flexible Storage [i](#)

-4-Temperature Option

Drawer [i](#)

-Triple Crisper System [i](#)

Features

Additional Features

Flexible Storage

No one offers more flexible storage¹ than the Whirlpool® 4-door refrigerator. Thanks to this model's

FreshStor™ refrigerated drawer, EasyView™ Triple Crisper system, Tri-freezer system and EasySlide bin, you'll always have the perfect place to store bulk food purchases, small snacks, produce and whatever else you bring home from the grocery store.

EasySlide Bin

Keep snacks close at hand with the industry-exclusive EasySlide bin. This snack compartment makes accessing everyday items easy with greater flexibility and sliding glass lids.

In-Door-Ice® System

The In-Door-Ice® system creates room for an extra full shelf in the refrigerator by moving the ice bin to the door.

AccuFresh™ Dual Cooling System

AccuFresh® Dual Cooling System helps keep fruits and vegetables fresher and helps keep crystals off ice cream. Food tastes great with ideal temperature and humidity levels in the refrigerator and freezer compartments for improved food preservation.

MicroEdge® Shelves

Store more items on each shelf with this model's industry-first MicroEdge® spill control shelves. They not only give you 25% more usable shelf space², they also help contain leaks.

Fold-Away Shelf

Make room for tall items. The front of this adjustable shelf slides out of the way creating temporary storage space for containers like a tall 2-liter bottle or a large salad bowl.

Pizza Pocket

The best pizza place is in your freezer with this specially-designed spot

made to store pizza boxes upright so they fit right in.

Freezer Divider

Easily customize freezer storage and organize frozen food with the moveable freezer divider bin. This bin is ideal for small or loose freezer items.

Measured Fill

Allows you to select the exact amount of filtered water - in ounces, cups or liters - that you need. The dispenser will fill the container and automatically shut off when complete.

Fast Ice Option

The Fast Ice option drops freezer temperatures for a full 24 hours to increase ice production by over 30%³.

Panoramic LED Lighting

Panoramic LED lighting makes finding items in your refrigerator easier by surrounding food with light.

Adjustable Gallon Door Bins

Exterior Filtered Ice and Water Dispenser with Tap Touch Controls

An exterior dispenser with Tap Touch controls offers filtered water and ice without opening the door and makes accessing features easy.

FreshFlow™ Produce Preserver

Located in the crisper drawer, the FreshFlow™ produce preserver helps keep produce fresh longer⁴.

FreshFlow™ Air Filter

Leave air freshness to your refrigerator. This model's FreshFlow™ air filter is 15 times more effective than baking soda at reducing common food odors by actively circulating air through our carbon

based filter. Replace the filter every 6 months for optimal performance.

PUR® Water Filtration System

Kick the bottled water habit with the PUR® water filtration system. You'll help protect the environment by preventing the disposal of up to 3,000 plastic bottles a year and save over \$600 for yourself. Select models offer filtered water from an interior or exterior dispenser.

Adaptive Defrost

Adaptive Defrost senses and adapts to help save energy and provides improved food preservation by running the defrost cycle only when necessary.
