ELICA'S EXCLUSIVE PLUS FEATURES

With a compact 4 ¾" height, Aria is an ideal choice where under-cabinet space is limited. Its upgraded 430 CFM internal blower provides sufficient ventilating power for most kitchens. Aria also offers the luxury and convenience of LED dimmable lighting with 2 Baffle Slot filters and glass touch controls.

Available in 30" or 36" width, Aria is designed for standard ducted installation and can also be used as a recirculating system using the kit available as an accessory.

PLUS FEATURES

CFM REDUCTION - CFM Reduction System (CRS), is an exclusive feature to Elica hoods, which enables the user to reduce directly in the glass touch control the maximum blower CFM, to meet local code requirements.

DIM-LIGHT - The Dimmer allows you to adjust the brightness of the light as you wish. With Elica, lighting is customized in a discreet, personal and practical way, in order to contribute in creating the perfect kitchen atmosphere.

AMBIENT LIGHT - Elica studies on hood lighting leaves no stone unturned. Here we have thought about products not only able to light the cooktop, but the entire kitchen space. And so the hood is transformed: from a kitchen appliance to a true lighting element. Considering the design of Elica hoods, it is not hard to imagine how this option is quite unique, and represents one extraordinary point of strength for us.

LED LIGHT - LED lighting is undoubtedly the smartest solution in terms of energy saving. Expected life time of over 20.000 hours, represents the most remarkable advantage of LED light bulbs.

STAINLESS STEEL BAFFLE SLOT FILTERS - A baffle shaped stainless steel filter with mesh backing allows air to pass but blocks grease, which drops into the high capacity baffle cavities. The design delivers large volume capacity, excellent capture efficiency at ALL blower speeds, silent operation, plus, durability that will last the life of the hood.

ELECTRONIC TOUCH CONTROLS - Enjoy the modern design and convenience of multi-function electronic touch controls, which are discreetly hidden behind sleek black glass, and will illuminate a soft blue when activated.
